Who we are?

About Company

Marg ERP Ltd. is a leading provider of integrated business application software for SMEs and MSMEs across the globe. From its inception in June 1992, the company has always tried to provide excellence in the field of pharmaceutical industries and other organization specifically with a field force.

About Product

Salesforce automation is a software, designed and developed by Marg ERP Ltd. to help companies keep live track of all their field force for different industries like FMCG, Pharma, and publication etc. Created using the latest and state-of-the-art technology, the software works as a complete reporting tool that provides crucial real information on the activities & location of all the field force. You can get a real-time update of your field force while planning their tour program, generating daily call reports and all the sales activities. The software is well-designed, user-friendly and provides industry-specific formats. It also eliminates the tedious task of repetitive form filling and manual data processing.
